

Proud to be a
PGA Partner
at the

- **Instruction & Practice Programs**
 - **Consistency & Club-fitting**
 - **Golf-Specific Fitness Training & Injury Prevention**
 - **Client Improvement Documented**
 - **Integrated teaching capabilities with video**

--Rick Martino, PGA of America, Director of Instruction

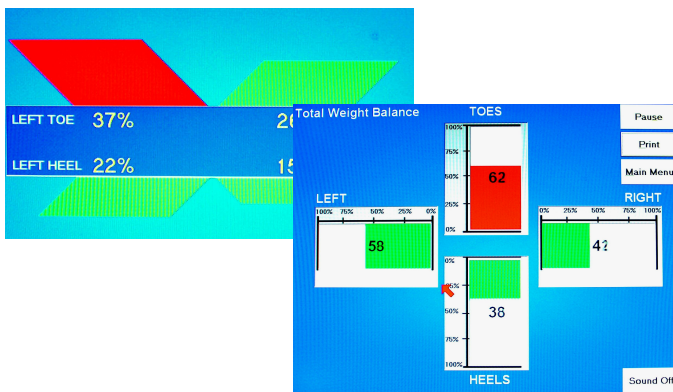

1997 PGA Teacher of the Year

The DBS system provides quantitative and dynamic measurement information on the golf swing. This feedback allows the teaching professional to explain correct motion and the player to "feel" the correct movement.

--Laird Small, PGA Professional Director, Pebble Beach Golf Academy

2003 PGA Teacher of the Year

The DBS shows our students the movement of their body and balance during the swing, without being too technical. It is the first time they have an awareness of their balance in the swing -- *They get it!*

At the PGA Learning Center

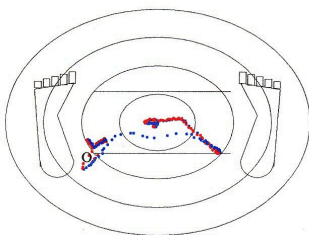

Multiple Active Screens to "LEARN"
proper address & weight transfer
with visual - auditory feedback

Feedback makes *Balance Training* effective
Specific screens for:
Full Swing, Pitching, Chipping and Putting
Only Perfect Practice Makes Perfect !

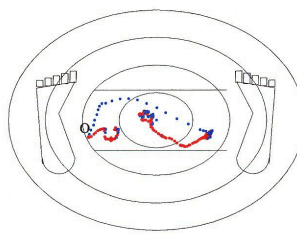

--Rick Bradshaw, PGA Professional

2004 North Florida PGA Section, Teacher of the Year

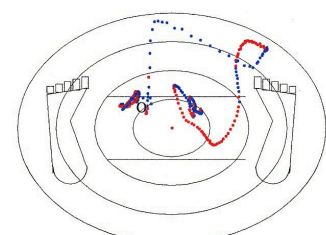

"The DBS is the key to becoming a scratch golfer!"
